

aasp Knowledge Base Director

This newly-created Board position will be tasked with bringing the vision of a nimble and inclusive knowledge base to life. The Knowledge Base Director will be the architect of a new resource database which will house aasp's expansive current library and anticipated additions. The Director will be responsible for the storage and access to the association's accumulated knowledge, and for developing it into a searchable database for the benefit of members.

The Director will lead teams to evaluate and recategorize existing documentation, publish an annual journal, and plan future webinars and courses as the bedrock of aasp's Foundational Academies.

Subcommittees to include: Foundational Academies, Standard Practice, and the Journal of Advancement Services.
